

Dear Company Representative,

The Purdue chapter of the Society of Hispanic Engineers (SHPE Purdue) could not continue to provide nearly as much value to its members without the support from our corporate partners. SHPE changes lives by empowering the Hispanic community to realize its fullest potential and to impact the world through STEM awareness, access, support, and development.

SHPE Purdue is an incredibly diverse group of more than 200 undergraduate and graduate students. Our members represent 19 majors, including 11 engineering disciplines. Throughout the academic year, we host three types of events: professional, service, and social.

Our professional events aim at furthering the careers of our members. Throughout the year, we host workshops for our members to further their skills and networking events to interact with company representatives. MentorSHPE is a semester-long program that pairs students with industry professionals for advice and career development.

Service is at the core of who we are as an organization. This year we aim to continue our partnership with previous organizations and increase donations for the less-privileged in the greater Lafayette area.

Social events allow our members to network with other members and become active within the Hispanic community at Purdue. Events like our different “social nights” and soccer tournament are a great opportunity for students to take a break from school and recharge.

With this being said, we invite your company to be part of our Familia. Attached you will find more about our chapter, why you will be a great fit for our chapter, and different ways to support us.

We look forward to partnering with you for the 2023-2024 academic year and beyond as we work towards our vision of a world where Hispanics are highly valued and influential as the leading innovators, scientists, mathematicians, and engineers.

Sincerely,

Andrea Ordonez  
President
